- Today's approach to ergonomics is not about static postures, but about movement throughout the day. Height-AdjustTable worksurfaces give users control and promote healthy workstyles. Tables facing outward create zones for interaction and collaboration.
- Turnstone Tour HV (horizontal/vertical) cabinets create a spatial boundary and provide storage for archived and anticipated files.
- Privacy/Modesty Screens help address visual distractions and the Cableway tucks away technology in an accessible "pocket."
- SlatRail supports a variety of worktools and frees up space on the worksurface.
- FYI™ monitor arms support healthy postures and make it easy to share what's on screen with others.
