Worksurface Series 7 | Space Division Montage,® Details Screens
Storage Elective Elements® 6, Details Worktools | Seating Amia™

- Today's approach to ergonomics is not about static postures, but about movement throughout the day. Height-AdjuTable worksurfaces give users control, help support collaboration and promote healthy workstyles. The 90° corner configuration allows users to fine-tune their orientation.
- Urethane Profile worksurfaces provide an ergonomic edge for keying and mousing.
- Workers are oriented outward to encourage collaboration.
- Panels provide seated privacy and create a boundary.
- One-high lateral files with cushion tops provide convenient guest seating and open or secure storage.
- Privacy/Modesty Screens help address visual distractions and the Cableway tucks away technology in an accessible "pocket."
- Slatwall supports a variety of worktools and frees up space on the worksurface.
- FYI™ monitor arms support healthy postures and make it easy to share what's on screen with others.

Planning Principles

■■■ Balances Privacy ■■■■ Manages Connections ■■■■ Supports Diverse Workstyles
