

Worksurface Series 7 | Space Division Details Screens, Elective Elements® 6
Storage Elective Elements® 6, Details Worktools | Seating Think®

- Today's approach to ergonomics is not about static postures, but about movement throughout the day. Height-AdjuTable worksurfaces give users control, help support collaboration and promote healthy workstyles. The 90° corner configurations allow users to fine-tune their orientation.
- Furniture is layered to create visual interest within the space.
- Storage with open shelves form boundaries while creating surfaces for piles and visual display.
- One-high lateral files with cushion tops provide convenient guest seating and open storage.
- Privacy/Modesty Screens help address visual distractions and the Cableway tucks away technology in an accessible "pocket."
- SlatRail supports a variety of worktools and frees up space on the worksurface.
- FYI™ monitor arms support healthy postures and make it easy to share what's on screen with others.

Planning Principles

- Balances Privacy
- Manages Connections
- Supports Diverse Workstyles
