Worksurface Elective Elements® 6, Series 7 | Storage Elective Elements® 6,  
 Details Worktools | Seating Chord Executive™ The Chair by Brayton

- Today's approach to ergonomics is not about static postures, but about movement throughout the day. Height-AdjuTable worksurfaces give users control and promote healthy workstyles. The secondary worksurface supports face-to-face meetings.
- A well-designed private office balances solitude with an openness that also invites collaboration. Comfortably efficient space, flexible furnishings, an appropriate image, and a deep understanding of the occupant's work style can deliver the right balance.
- Urethane Profile worksurfaces provide an ergonomic edge for keying and mousing.
- The Cableway tucks away technology in an accessible "pocket" while keeping the area under the worksurface clutter free.
- Slatwall supports a variety of worktools and frees up space on the worksurface.
- FYI™ monitor arms support healthy postures and make it easy to share what's on screen with others.
- Personal task lighting is an energy efficient way to help address the issue of eyestrain by letting users position light to the task at hand.

Planning Principles

■■■ Balances Privacy   ■■■ Manages Connections   ■■■ Supports Diverse Workstyles
