

Height-Adjustable Thought Starters

Worksurface Series 7 | Space Division Universal® Details Screens
Storage Universal®, Details Worktools | Seating Think®

- Today's approach to ergonomics is not about static postures, but about movement throughout the day. Height-AdjuTable worksurfaces give users control, help support collaboration and promote healthy workstyles. The 90° corner configuration allows users to fine-tune their orientation.
- Storage towers with open shelves form boundaries while creating surfaces for piles and visual display, allowing users to access material while seated or standing.
- Privacy/Modesty Screens help address visual distractions and the Cableway tucks away technology in an accessible "pocket."
- Slatwall supports a variety of worktools and frees up space on the worksurface.
- FYI™ monitor arms support healthy postures and make it easy to share what's on screen with others.
- Personal task lighting is an energy efficient way to help address the issue of eyestrain by letting users position light to the task at hand.

Planning Principles

- Balances Privacy
- Manages Connections
- Supports Diverse Workstyles
