

Height-Adjustable Thought Starters

Worksurface Series 7 | Space Division Elective Elements® 6, Details Screens  
Storage Universal®, Details Worktools | Seating Siento™

- Today's approach to ergonomics is not about static postures, but about movement throughout the day. Height-AdjuTable worksurfaces give users control and promote healthy workstyles. The 90° corner configurations support side-by-side collaboration and allow users to fine-tune their orientation.
- Boundaries are established without creating barriers to collaboration and connection.
- One-high lateral files with cushion tops provide convenient guest seating and secure storage.
- Privacy/Modesty Screens help address visual distractions and the Cableway tucks away technology in an accessible "pocket."
- Slatwall supports a variety of worktools and frees up space on the worksurface.
- FYI™ monitor arms support healthy postures and make it easy to share what's on screen with others.
- Personal task lighting is an energy efficient way to help address the issue of eyestrain by letting users position light to the task at hand.

Planning Principles

- Balances Privacy
  Manages Connections
  Supports Diverse Workstyles
