

36' x 34'

Open plan of fices don't have to be static. Here, all stations are fitted with Sit-to-Walk units giving each person the option to sit, stand or walk throughout the course of the day. To move into the "walk mode", a user can simply slide their technology to other side or use an FYI Flat Panel arm to quickly reposition the monitor to the walking side of the same desk. Use of a wireless keyboard, mouse and external monitor on an FYI Flat Panel arm will ensure that proper ergonomics are maintained.
