

# Airtouch™ Adjustable Worksurface

Page 1 of 2

## Customer Needs:

Height-adjustable worksurfaces that are usable in both seated and standing postures. Ideal solution for power-free height adjustability and for ergonomic support in collaborative environments.

## Performance & Specifications:

- 26" to 43" height adjustability range
- Travel speed is approximately 1.2" seconds for entire 17" of adjustability
- Lifting column controlled manually; no power required
- 150 lbs. load capacity (including worksurface)
- Ergonomic lift handle activates smooth, effortless height adjustments
- More than just a worksurface; add the right worktools and it becomes a fully adjustable workstation

## Adjustment:

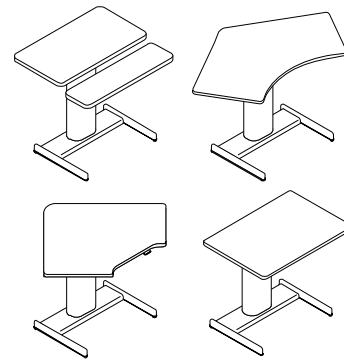

- Shipped at minimum load bearing capacity (approximately 30 lbs.)
- Lift gauge on the column allows the amount of lift assist to be set for various cargo loads. The lift assist mechanism needs to be adjusted properly for the table to move smoothly
- Lift gauge tool is shipped with each table
- Infinite height adjustment within the 17" vertical range
- Keyboard worksurface on dual worksurfaces adjusts up to 6" higher or 5" lower than the monitor worksurface
- Keyboard on dual worksurface tilts 15°/-10°
- Glides have 1" of height adjustment for surface leveling on uneven floors

## Top Construction:

- Core is 45 pound particle board
- Surface is High Pressure Laminate
- Worksurfaces are available in the Steelcase Universal Tables, Universal Systems and Series 9000 Systems style options
- Worksurfaces are available in 3mm or P-edge profile options
- Edge finish is specified separately from laminate color
- Available in Straight, Corner and 120° configurations. Straight and Corner are also available with dual worksurfaces
- Worksurfaces have pre-drilled mounting holes for the base and paddle installation.
- Worksurfaces are specified in nominal dimensions to provide a 1" gap to separate sides and adjacent furniture
- All standard Steelcase laminates supported. (See Details SpecGuide for a full list)

## Base Construction:

- Lifting column is aluminum; available in Platinum.
- Base is steel; available in Black, Sterling Metallic, Platinum Metallic, and Midnight Metallic.
- Rigid design maximizes floor space without sacrificing stability
- Clearance on 30"D Straights and 48"W Corners meets ANSI/BIFMA ergonomic guidelines
- Ships K.D. – minimal tools required for assembly

Additional worksurface shapes available.
