

Power Pincher™

Customer Needs:

A power control product designed to turn off unused equipment and reduce energy consumption in an unoccupied workstation.

User Requirements:

- An 8-outlet power strip; 6 controlled and 2 uncontrolled outlets.
- Controlled by an occupancy sensor, which automatically turns on/off computer monitors, printers, etc.

Product Features

Style Numbers:

PPS6SP – Power Pincher™

- Size: W3-3/4" x L9-1/2"
- Color: Black
- Construction: Molded ABS plastic
- Warranty: 10 years
- The power strip has six outlets; controlled by the occupancy sensor to automatically turn on and off computer monitors, printers, task lights, etc. There are an additional two outlets that are uncontrolled.
- Maximum surge amperage: 48,000 amps
- Outlets are able to accommodate a plug with a charger.
- Each power strip contains a three-prong grounded line with a 7'8" cord, on/off switch with integral circuit breaker, red LED indicator, and an RJ connector.
- Both power strip and power outlet are rated for 12 amps, 120 VAC AC, 50/60 Hz.
- Sensor can be mounted up to 9' from power strip with the 9' cord.
- Sensor contains variable time-out adjustment for a range of 30 seconds to 30 minutes.
- Auto-off button in sensor can be used to turn off all devices at the same time.
- UL-listed and CSA-certified.
- Protection modes: 400 L-N (Line-to-Neutral) volts, 400 L-G (Line-to-Ground) volts, 400 N-G (Neutral-to-Ground) volts
- Joule rating: 400V
