

## Eyesite™ Triple Display Support

- 1 To adjust the height of the monitor, remove top cap and locate the adjustment nut on top of the column. Using the supplied Allen Wrench turn the adjustment nut right or left to make the monitor go up or down.
  - Supports 3 monitors up to 24"
- 2 The viewing angle of the monitor may be easily adjusted with the set screw on the monitor mount bracket. Pivot the monitor mount bracket until you achieve the viewing angle desired then tighten the set screw.
  - Tilt: +10/-90° for easy access to cable connections
  - Pan: Fixed, no adjustment
- 3 Slide each monitor inward so the monitors are adjacent to each other.
 

TIP: To ease the sliding motion - tilt the monitor back slightly, then slide left or right.

Focal adjustment: Fixed, no adjustment
